

Program Overview

As part of our mission, we are starting the CSCE Industry Mentorship Program.

The goal of the program is to connect UofT civil engineering students to industry professionals to form and foster effective mentor-mentee relationships from which students can gain valuable insight into the real-world application of the different subfields of civil engineering.

About CSCE

Provide civil engineering students with resources, tools, and programs to aid in their success

Aid students in their journey of professional development

Form and foster effective mentor-mentee relationships between UofT civil engineering students and industry professionals

What to Expect?

- Mentees interested in learning about different career options within civil engineering
- Open-minded, enthusiastic, and professional mentees
- Clear communication via email from the CSCE UofT executive team for any program updates or changes

What we Expect from You

- Sharing of contact information (ex. email address or phone number) to schedule mentorship sessions
- Willingness to participate in our mentorship events (ex. workshops, panel discussions etc.)
- Patience and open-mindedness when aiding mentees in questions and decisions

FAQ's

What do I have to do as a mentor?

Follow-up with requests from mentees for mentorship sessions. Meet with mentees and answer their questions, concerns and guide them to achieve their professional goals.

How do I Coordinate Mentorship Sessions with the Mentees?

The mentees will reach out and schedule meetings depending on your availabilities through email. The sessions can be hosted virtually (Zoom, Google meets, phone call) or in-person based on your preferences.

What is the Program Timeframe?

The program will launch in February 2023 and run till April 2023.

The following is CSCE's recommended schedule:

February 2023 - 1st Touchpoint

March 2023 - 2nd Touchpoint

April 2023 - Last Touchpoint

How much Time is Required from me?

It is estimated to take 1-3 hours monthly
